

# Cruise Control Kits

VDO introduces NEW Cruise Control Kits to their well trusted Range, VDO now has new listings for Audi, Ford, Mazda, Nissan, Suzuki, Toyota and more! See over page for full vehicle listing.

Whether you are a private motorist or fleet operator, and you're looking for substantial savings and fuel economy, its time you looked at a VDO Cruise Control system. Due to Cruise advanced technology the VDO system can help drivers travel safely and arrive relaxed, while effectively reducing their vehicle's fuel consumption.

VDO Cruise Controls can be fitted to most Australian and imported vehicles including Four Wheel Drives, Light Commercials, and

many vehicles with electronic Drive by Wire) throttle systems.

The Cruise Control constantly monitors the vehicle speed allowing the driver to concentrate on road conditions and drive in a more relaxed manner.

All electronic operations are carried out in an instant by the latest software designed by engineers who design products for some of the largest OEM clients in the world.
